No Substitution of Workmen.
The statement in Premier Clemenceau's newspaper, L'Homme Libre, that under no circumstances will allied workers or soldiers replace French workers in factories is well timed in view of the thousands of non-combatants we are sending to France in support of our armies. It is wise to ally once and for all the fears expressed by some Frenchmen, and encouraged, no doubt, by the pacifists and Bolshists, that American artisans and engineers were to be placed so as to release French workmen for the trenches. Although to Americans the idea when first advanced last year was nothing but absurd, to the French, distraught by almost four years of terrible hand-to-hand conflict with the enemy, it was disturbing in the absence of reiterated definition of the real intention. The French newspapers all may tell their readers that the United States armies are in France to fight and that the workmen of the supporting organization are to be used only for the belligerent purposes implied by their presence.
Neither the people of France nor of any of our allies need fear that their share of the actual trench fighting will be increased by any engineer or supply projects carried on by us. These projects—railway building, for example—will not release any French veteran who has served his time at the front for further service duty.—Pittsburgh Gazette Times.

Big Wages for Spare Time.
Factory workers in an Ohio town last year earned money during spare time at the rate of 92 cents an hour. That would be \$7.36 for an eight-hour day, \$220.80 a month, \$2,649.60 a year. That is a good deal more than a fair profit on idle hours.
What were they doing? Working in home gardens, growing vegetables that they and their families ate. The manufacturing concern for which they worked during regular hours kept an accurate record of the time the men spent working in the gardens and the value of the garden stuff grown.
This matter isn't news, particularly. It is now many months old. But if it does seem worth mentioning just now by way of calling the attention of the industrial workers of the nation to the fact that time spent working home gardens is not time thrown away, that the hour they spend morning or evening working the garden yields better returns than any hour they put in in the factory.

Labor Mission's Appeal.
Greater food conservation so that the allied peoples and armies may be fed is urged upon the American nation in a statement by the American labor mission, appointed by President Wilson to make a comprehensive study of conditions in England and France. The statement, which was cabled to the food administration, was made just before the mission started back to America.
Violated Child Labor Laws.
Six employers who hired children under age or who had them work overtime were fined in Chicago by Municipal Judge Haas. They are Bentley, Murray & Co., printers; Frank Poppageorge, bootblack; Jim Nick, bootblack; Brock & Rankin, publishers; A. L. Randall company, florists; and Joseph Wais, cleaner and dyer.

FROM ALL PARTS OF TENNESSEE
Reports of Interesting Events Boiled Down for Hasty Perusal.

Johnson City.—The wholesale house of Lockett Brothers, was destroyed by fire, entailing a loss of stock estimated at \$120,000.

Nashville.—The Southern Association of High Schools, Normal Schools and Colleges held its second meeting at George Peabody College for Teachers.

Newbern.—The Newbern high school will open its fall and winter terms beginning Sept. 2, under the supervision of Prof. C. R. Mullins and Prof. Denton.

Memphis.—Ten United States navy recruits were accepted at the Memphis navy recruiting station. Five were Memphis boys out of the ten accepted.

Knoxville.—John J. Bryant, 33, died at a local hospital, having been run down by an automobile truck when he sustained, among other injuries, a fractured skull.

Nashville.—The federal food administration of Tennessee, of which H. A. Morgan is director, and the Tennessee Retail Hardware Association, held a joint meeting here.

Whitewater.—About 200 negro preachers attended the district conference of the Methodist Episcopal church (colored) held here. Delegates came from all parts of the country.

Nashville.—Chairman L. D. Hill of the democratic state primary board issued a notice calling upon all county boards, as prescribed by law, to meet and canvass the election returns.

Dyersburg.—Raymond Grills, the 17-year-old son of County Superintendent of Education R. M. Grills, was drowned in the Obion river, near Trimble, when out swimming with a party of friends.

Nashville.—The executive committee of the Nashville chapter of the Red Cross has authorized the formation of a local Red Cross motor corps. Commander Gen. E. B. Harrington, of the southern division, came here for the purpose of perfecting this organization.

Memphis.—Richard Hust and Carl Shoeswinkle, alien Germans who have been in the custody of federal officials for several days, will be interned at Fort Oglethorpe, according to telegraphic orders received here by United States Marshal Stanley Trezevant. The men are automobile mechanics and violated their permits in leaving Cincinnati several weeks ago.

Milan.—The Red Cross held a contribution auction sale last week and realized \$202.25. This was for little items of donations, the biggest being a pig and the smallest being the penny given by a child. A \$5 pig donated brought \$56.95, and a small basket of fruit donated by a little girl, was sold and resold to amount to \$14.50. A cake baked by one of the citizens who was born in Germany brought \$22.

Nashville.—Governor Rye issued a statement on the state primary and the result: "It appears from the returns in the senatorial election that Senator Shields has been nominated to succeed himself, and I most cheerfully submit to the verdict of the people as expressed at the ballot box. I wish to say, however, that I waged an open fight for the coveted honor and presented my case as best I could in the brief campaign I made."

Reports from two-thirds of the state show that Shields has received 23,020 votes and Governor Rye 9,972 votes. This same two-thirds of the state had voted 14,373 for Judge Roberts and 9,250 for Austin Peay. The counties not heard from are largely in East Tennessee.
Estimates as to the total vote from 40,000 to 80,000, but it is generally acknowledged that a very light vote was polled, probably the lightest in years.

Knoxville.—The 117th infantry, composed of Tennessee troops, has been in the trenches in a quiet sector, but under a grueling fire from the German artillery, after being reviewed by Gen. Pershing, according to a letter from Col. Cary F. Spence, commanding the regiment, to his wife in this city.

Colonel Spence had a narrow escape when eight boche shells burst about the automobile in which he was riding. They moved out on good order "with only a few scratches."
Mustard gas is giving the men a great deal of trouble, and they are forced to sleep in the daytime as the bombardment is so terrific at night, with the consequent greater hazard of being gassed.

Tennessee stands third among the states in the Union in the sale of war savings stamps, which is being conducted by merchants all over the country. The campaign is known as the "merchants' drive." Her percentage is 29.7. Missouri leads with 44.1, and New Mexico is second with 31.2 per cent.

U. S. CONTROLS WAR WORKERS

President in Proclamation Calls on Employers to Cease Private Hiring August 1.

ASKS FOR LABOR'S LOYALTY

Urges Forces to Respond as Heretofore to Appeals of United States for Industrial Volunteers.

Washington, June 19.—All employers engaged in war work were urged by President Wilson to refrain after August 1 from recruiting unskilled labor in any manner except through the United States employment service recently organized by the department of labor.

The president's statement follows: "For more than a year it has been our pride that, not our armies and navies only, but our whole people is engaged in a righteous war."

"We have said repeatedly that industry plays an essential and honorable role in this great struggle as do our military armaments."

"We all recognize the truth of this, but we must also see its necessary application—namely, that industry, doing a vital task for the nation, must receive the support and assistance of the nation."

"There has been much confusion as to essential products. There has been ignorance of conditions—men have gone hundreds of miles in search of a job and wages which they might have found at their doors."

Work at Cross Purposes.
"Employers holding government contracts of the highest importance have competed for workers with holders of similar contracts, and even with the government itself, and have conducted expensive campaigns for recruiting labor in sections where the supply of labor was already exhausted."

"California draws its unskilled labor from as far east as Buffalo, and New York from as far west as the Mississippi."

"Thus labor has been induced to move fruitlessly from one place to another, congesting the railways and losing both time and money."

Central Control Necessary.
"It is obvious that this situation can be clarified and equalized by a central agency—the United States employment service of the department of labor, with the counsel of the war labor policies board as the voice of all the industrial agencies of the government."

"Such a central agency must have sole direction of all recruiting of civilian workers in war work; and, in talking over this great responsibility, must at the same time have power to assure to essential industry an adequate supply of labor, even to the extent of withdrawing workers from nonessential production."

"Therefore, I, Woodrow Wilson, president of the United States of America, solemnly urge all employers engaged in war work to refrain after August 1, 1918, from recruiting unskilled labor in any manner except through this central agency."

"I urge labor to respond as loyally as heretofore to any calls issued by this agency for voluntary enlistment in essential industry."

HURL SHELLS ON HUN DEPOTS

Railway Centers and Munition Factories Targets Hit by High Explosives From Air.

London, June 19.—In the period from June 6 to June 11 the royal air forces in bombing operations into Germany severely damaged military targets at Thionville, Metz-Sablons and other points, says an official summary.

The railway station and siding at Thionville were attacked four times and several direct hits were made on the station. An explosion was caused near the Carlshutte work there. Two attacks were made on Metz-Sablons, and a train there received a direct hit. Some three and one-half tons of bombs were dropped on the railway sidings at Karlsruhe and the railways and munition factories at Hagendingen and Dillingen. All British machines returned safely from all the expeditions.

U. S. SUB SINKS HUN U-BOAT

American Submersible Destroys German Submarine Off the Virginia Coast, Is Report.

An Atlantic Port, June 19.—A German submarine, with its entire crew was destroyed by an American submersible off the Virginia coast several days ago, according to a report brought here by passengers aboard an American steamship. Officers of the vessel said they heard the story of the submarine combat from members of the victorious American undersea boat's crew.

Arrest 8,000 of Draft Age.
San Antonio, Tex., June 19.—A total of 8,000 men of draft age were taken into custody by agents of the department of justice and local police yesterday and last night. Every man found downtown without a registration card was questioned. As a result of the drive 325 men are detained on charges of failing to register.

Wages Beat Expenses' Rise.
The cost of living in Bridgeport increased 61.4 per cent from January 1, 1915, to June 22, 1918, and in the same period weekly earnings among industrial workers in Bridgeport shops increased 81 per cent, according to the testimony given before the investigators of the Taft-Walsh board at Bridgeport, Conn., by W. E. Freeland.

For several weeks he has been working on the Bridgeport statistics at the head of a committee of 200.
